

## Advanced Placement English

For each one of the following write a 4-5 paragraph essay.

### The Once and Future King

It has been said that The Once and Future King generally presents an antiwar message, but nevertheless draws a great deal of dramatic power from the conflict inherent in warfare. Is the novel's attitude toward war consistent, or does White contradict himself by glorifying battles? Be specific in your answer, using examples from the book to prove your point.

### Pride and Prejudice

How did the men and women characterized in Pride and Prejudice clearly illustrate the attitudes toward marriage in Austen's time?

Note: this will involve a bit of research as well as specifics from the book. Make sure to cite correctly.
